A WORD ABOUT REPRINTS

The reader may be puzzled by the conspicuous number (1501 to 1519) aligned in the margin with the title of each review in this volume. The number is a key for use in the ordering of reprints. These are priced uniformly at $0.95 each, postpaid. Payment must accompany the order if the purchase totals less than $10.00. All payments are to be made to Annual Reviews, Inc. in U.S. dollars. California orders are subject to 5 per cent sales tax. Delivery in the U.S.A. will require approximately two to six weeks.

Reprints, also at $0.95 each, are available from the *Annual Review of Biochemistry* and the *Annual Review of Psychology* (since 1961 in both cases) and from the *Annual Review of Physiology* starting with Volume 30 (1968).

The sale of reprints of articles published in the *Reviews* has been initiated in the belief that reprints as individual copies, as sets covering stated topics, and in quantity for classroom use will have a special appeal to students and teachers.
